Part III DETAILED ACTION

Claims 1-9, 13-68 are currently pending. Claims 1-9,13-49 remain withdrawn from consideration. Cancellation of the withdrawn claims is repeatedly requested.

In response to the Office action mailed 01/27/2003, applicant canceled all claims, drawn to the elected Group II, claims 10-12, and submitted new claims 50-68. The new set of claims, unlike the original one, is drawn to a number of patentably distinct species. Consequently, the following election of species requirement is applied.

Election of Species Requirement

Election of species should be required prior to a search on the merits in all applications containing both species claims and generic or Markush claims.(MPEP 808.01(a)).

The claims of Group are individually or dependently directed to a plurality of disclosed patentably distinct species of agents and antigens. Applicant is required to elect a single disclosed species of each for

Art Unit: 1631

I) one of the agents selected from Etx, EtxB, and antibody, as recited in, e.g., claim 50;

II) one of antigens, as recited in claims 57-59.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

To be complete, a response to the election of species requirement should include a proper election along with a listing of all claims readable thereon, including any claims subsequently added. MPEP 809.02(a).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Michael Borin whose telephone number is (703) 305-4506. Dr. Borin can normally be reached between the hours of 8:30 A.M. to
